Information Security Management Structure Chart

※1 The abbreviated name of the team responsible for CSIRT activities within our group. The official name is FUJITRANS CORPORATION Security Incident Response Team.
In the event of a cyber incident, the FTC-SIRT—guided by the Basic Information Security Policy—strives to respond promptly and identify the scope of the impact, while simultaneously conducting root-cause analysis and preserving evidence. Its top priorities are to prevent the spread of damage and minimize any disruption to business operations.
